PROFESSIONAL ZINC ALLOY FACTORY

Fei Hong Five Metals Wares Co., Ltd. was established in Shishi City, Fujian Province, China in 1995. For meeting growing order amount, Fei Hong Five Metals Wares Co., Ltd. was removed into a bigger area, where is near to Xiamen port and has advantage of convenience and speedy transportation.

Fei Hong Five Metals Wares Co., Ltd. devote itself to the research of zinc alloy injection, and efficiently enlarge the scope, quality and add-value of our products, making our company in the leading place of Zinc Alloy industry.

The R&D department was set in 1999 firstly launched our first original design—coin trolley key chain used in Europe supermarket. This patented right product gained acclaim from buyers and peer industry, also making it the beginning of our ODM service. Besides the ODM product, we start making functional and assemble badges., like Combined Movable Pin. It brought us the order of Olympic Games Sydney as well as relative product of Disney theme Park since 2000. We even have been the audited factory of Disney.

ASSURED SERVICE

The online customer service system allows you to ask questions more quickly and get answers in a short time. In addition, in order to better understand the needs of our customers, we also actively participate in major commercial exhibitions and establish trust relationships with our partners through frequent exchanges.

ONE-STOP SERVICE

FEI HONG

Five Metals Wares Co.,Ltd.

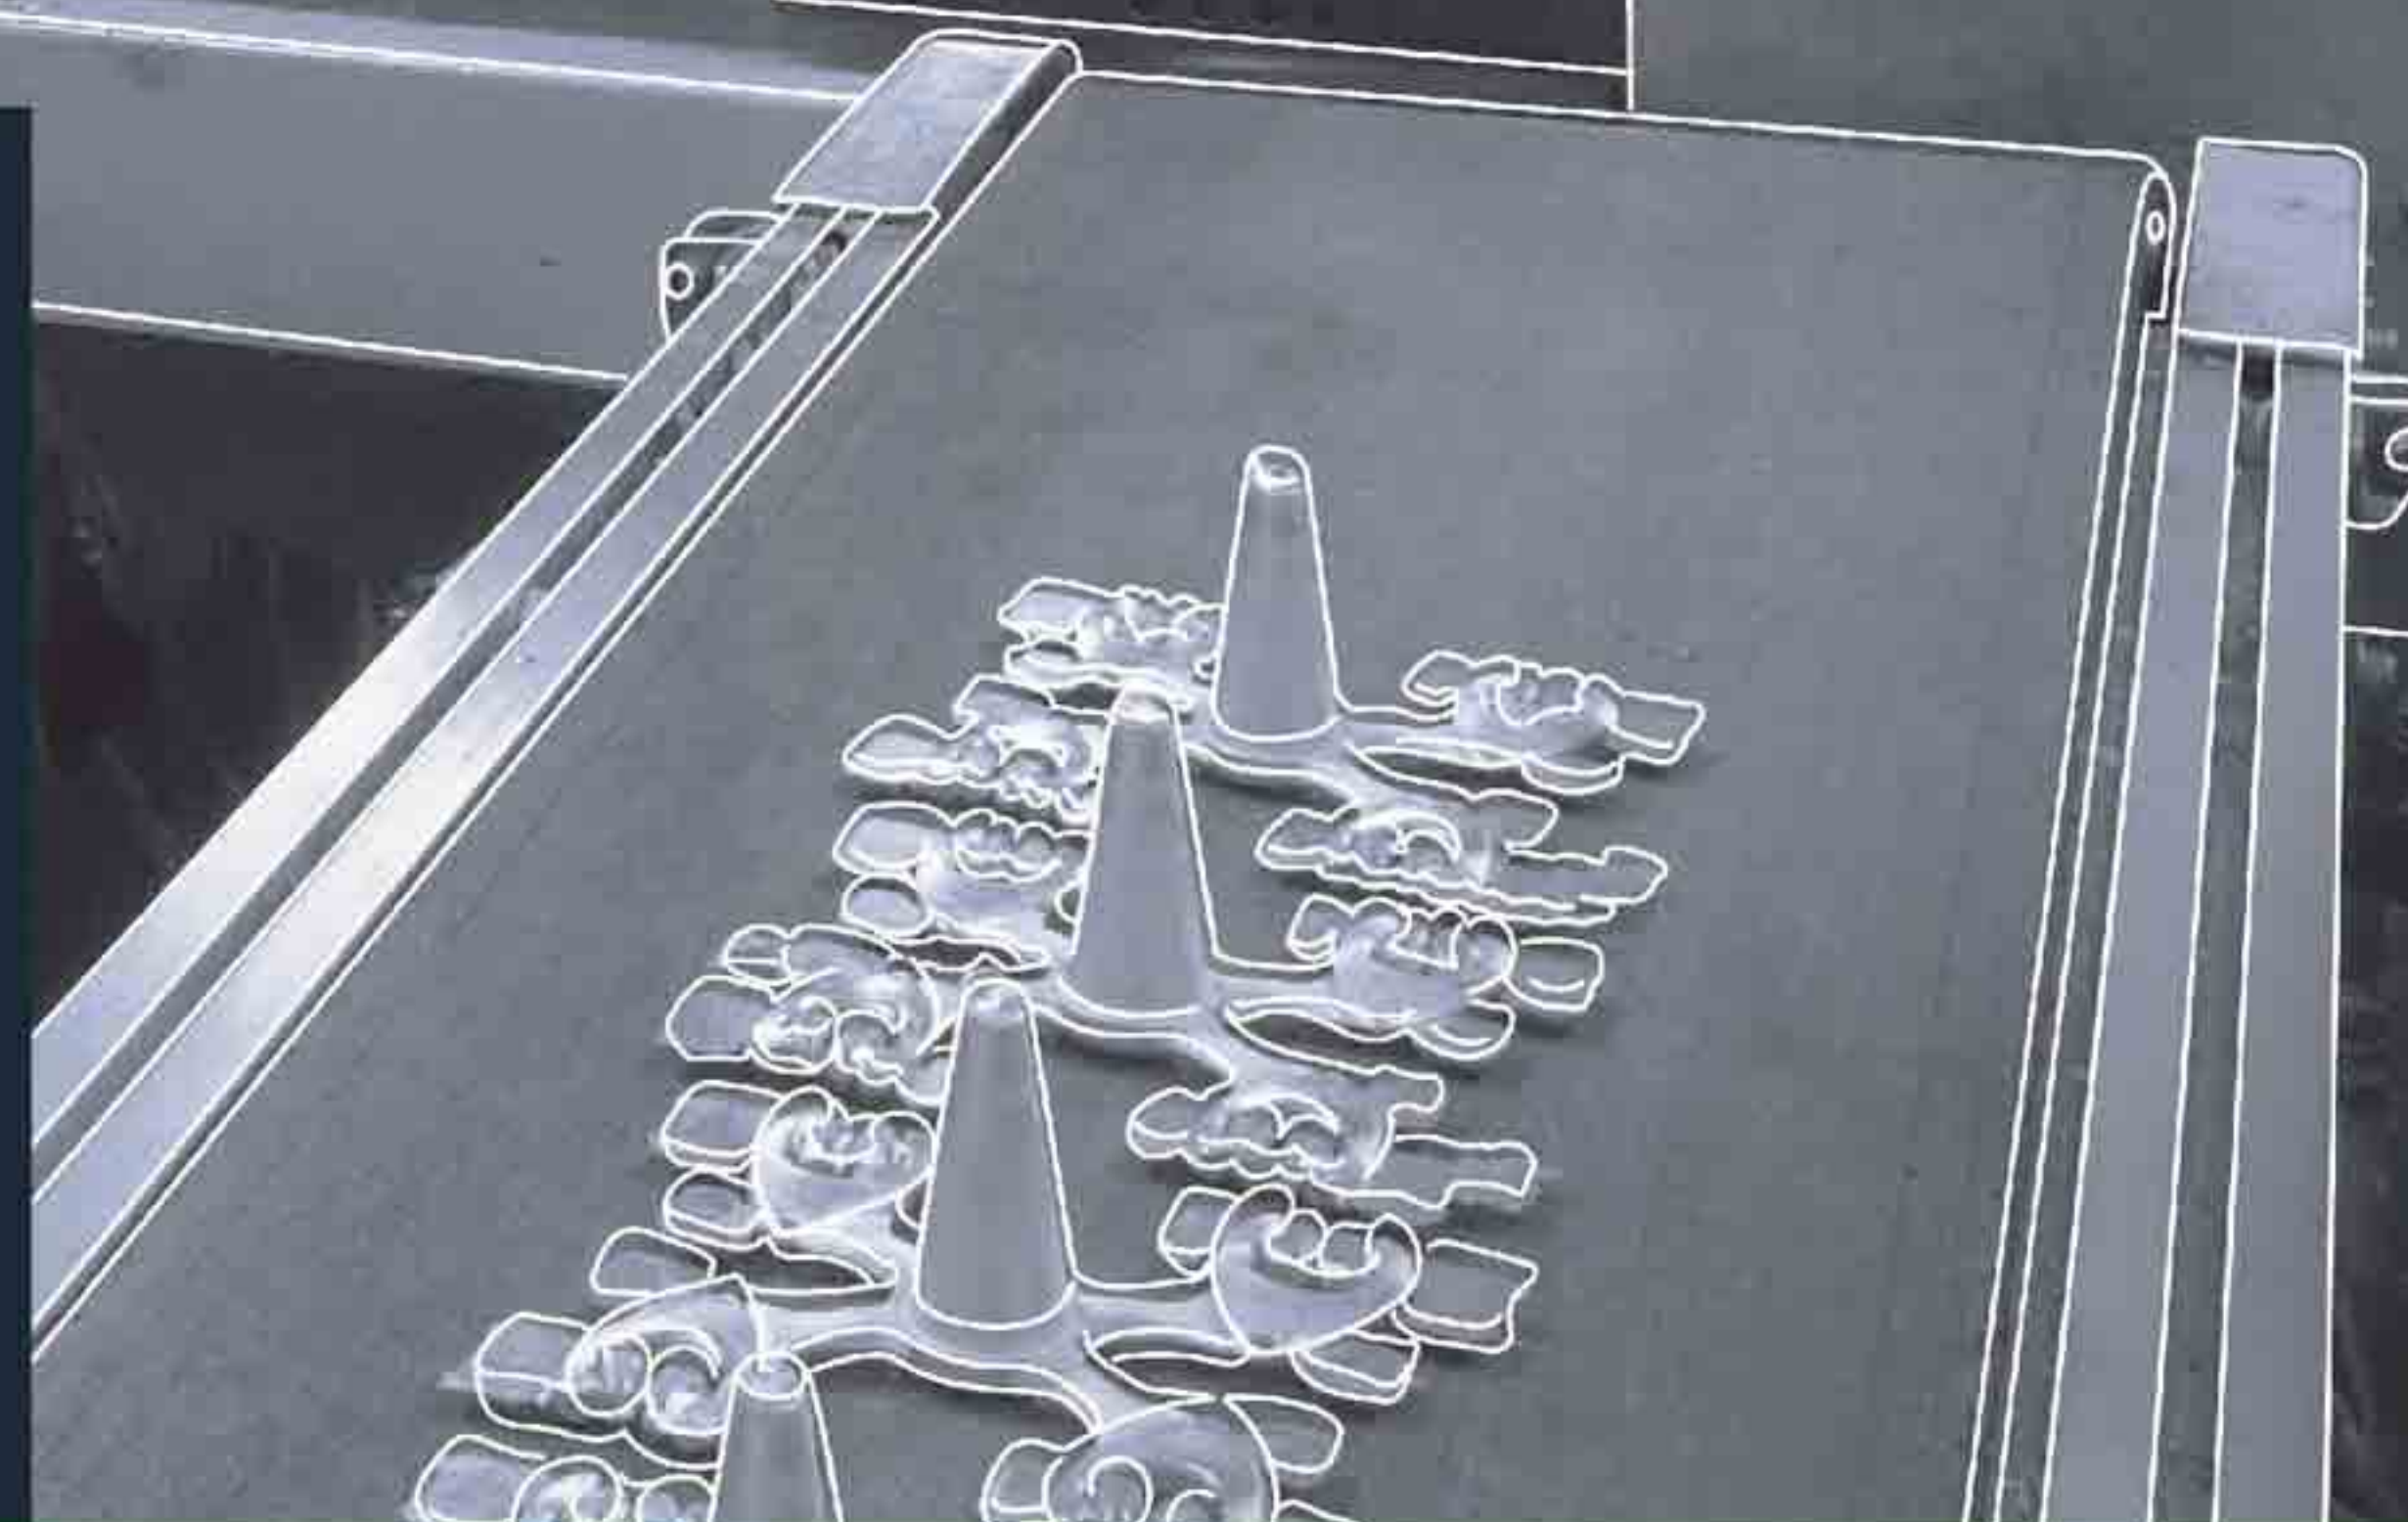

Due to high potentiality in China market, we established a branch office in Shanghai in 2003, they can do domestic and international business independently. With the advance technology, fashionable design and shipping

agency in HK, together with the resource Of ONLYGO and JELIKU, we can ensure to supply our customers with more professional services. Due to increasing need of the changing market, we added a plastic assemble line, which can make use of combination of different material, bring down total cost to meet the demand of customers.

Since 1986

We insist on the principle of development of high quality and all-rounded cooperation to customers. We are holding innovation inception and attitude towards coming future and are ready to establish long term cooperation with you.

3D Digital Printing Badge

NEW

◆ New technical to make your product unique ◆

Our technical are still researching the effects of UV digital printing on metal products and developing new coloring technique – “glitter digital printing”.

Compared with the general digital printing, the “glitter digital printing” can show more layers and more changes in color, making the product more eye-catching!
